为Grafana增加多种风格主题(第二十篇)

# 为Grafana增加多种风格主题(第二十篇)

Grafana默认就只有2种主题色，深黑色(dark)或亮白色(light)，使用久了会觉得有点单调。

https://github.com/gilbN <https://github.com/gilbN>

https://github.com/gilbN/theme.park/wiki/Grafana <https://github.com/gilbN/theme.park/wiki/Grafana>

All apps have 5 themes to choose from.

```
https://gilbn.github.io/theme.park/CSS/themes/<APP_NAME>/<THEME_NAME>.css
```

```
<https://gilbn.github.io/theme.park/CSS/themes/%3CAPP_NAME%3E/%3CTHEME_NAME%3E.css>
```

aquamarine.css

hotline.css

dark.css

plex.css

space-gray.css

具体操作步骤：

1、创建一个目录，用于存放下载对应主题的css文件

```
#  mkdir /usr/share/grafana/public/themes/
```

```
#  cd  /usr/share/grafana/public/themes/
```

```
#  wget  https://gilbn.github.io/theme.park/CSS/themes/grafana/aquamarine.css
```

<https://gilbn.github.io/theme.park/CSS/themes/grafana/aquamarine.css>

缺省星空色背景图

# wget https://images.unsplash.com/photo-1524334228333-0f6db392f8a1

<https://images.unsplash.com/photo-1524334228333-0f6db392f8a1>

或者使用一个for 循环下载对应的所有主题css文件

```
# for f in aquamarine.css hotline.css dark.css plex.css space-gray.css;do wget
https://gilbn.github.io/theme.park/CSS/themes/grafana/$f;done
```
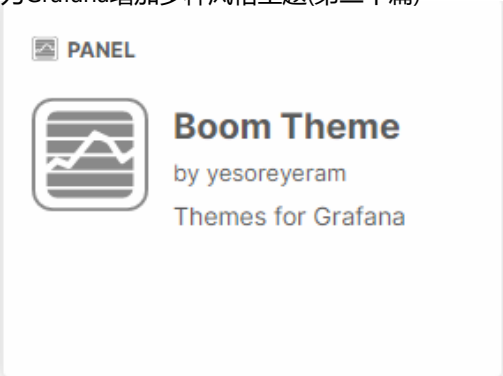

<https://gilbn.github.io/theme.park/CSS/themes/grafana/$f;done>

2、为Grafana安装社区插件Boom Theme

https://grafana.com/grafana/plugins/yesoreyeram-boomtheme-panel/installation

<https://grafana.com/grafana/plugins/yesoreyeram-boomtheme-panel/installation>

为Grafana增加多种风格主题(第二十篇)

```
# grafana-cli plugins install yesoreyeram-boomtheme-panel
# systemctl restart grafana-server
```

3、在Dashboard中添加Boom Theme

http://IP:3000/public/themes/aquamarine.css <http://52.83.241.147:3000/public/themes/aquamarine.css>

此处以grafana v7.x演示

# 为Grafana增加多种风格主题(第二十篇)

展示效果

## 星空夜色(Night)

## 碧绿色(aquamarine)

## 火热色(hotline)

# 为Grafana增加多种风格主题(第二十篇)
